EXPERIENCE

Internship

Airbus Defence & Space

April 2017 – October 2017

Friedrichshafen, Germany

Worked in a team developing a new satellite platform.

- Scripting and maintenance (Java) of the System Reference Database
- Developed plots (Matlab, GNU Octave) and documentation scripts (Java) for Functional Verification
- Documentation and visualization (Visio) for Operations

Student Assistant

Karlsruhe Institute of Technology (H2T)

June 2016 – April 2017

Karlsruhe, Germany

Developed a miniaturized motion tracking solution.

- Used Altium to develop a miniaturized motion tracking device
- Developed an AHRS sensor network (Python)

Student Assistant

Karlsruhe Institute of Technology (ITIV)

October 2012 – May 2013

Karlsruhe, Germany

Tutor for the lecture "Digital Technology".

EDUCATION

M. Sc. Electrical Engineering and Information Science

Karlsruhe Institute of Technology (KIT)

April 2016 – March 2019

Focus on systems engineering and robotics.

- Master thesis on "Development of an adaptive locomotion strategy for a modular multi-legged robotic system with arbitrary leg numbers" at the FZI Research Center for Information Technology (video of the main features available at <https://youtu.be/lzfua5T34Ag>)
- Final grade: 1.4 (very good), thesis grade: 1.0 (very good)

B. Sc. Electrical Engineering and Information Science

Karlsruhe Institute of Technology (KIT)

October 2011 – March 2016

Focus on hardware design.

- Bachelor thesis on "Concept and Implementation of a Wireless Wearable Motion Tracking Device based on an AHRS" at the High Performance Humanoid Technologies lab (H2T)
- Final grade: 2.5 (good), thesis grade: 1.0 (very good)

SKILLS

Python C++ Java

ROS Gazebo

VHDL Verilog Altium

Git Github Gitlab

Matlab GNU Octave

LANGUAGES

German ●●●●●

English ●●●●●

Spanish ●●●●●

French ●●●●●

CERTIFICATION

Basic Certificate in Project Management (GPM)

Examination of project management skills like terminology, concepts and methods.

VOLUNTEERING

Coder Dojo Karlsruhe

📅 October 2017 – December 2018

- Developed a robotic workshop in which children learn to control a four-wheeled robot using the Arduino IDE
 - Educated children and teenagers in computer science (Python, C++ and Scratch)
-

Polytechnischer Verein Karlsruhe

📅 October 2011 – October 2014

- Self organized living community of 15 students
 - Held positions as treasurer and member of board, organizing talks and trips
 - Gave talks on satellite technology, my trip around the world and other topics
-

Trip around the world

📅 September 2010 – July 2011

- Travelled through Central and South America, New Zealand, Australia and South Africa
 - 3 months voluntary service in a botanical garden in Puyo, Ecuador
-

Scouting

📅 January 2007 – March 2010

- Volunteered as a team leader
- Organized weekly group meetings, weekend activities and a canoe trip to Sweden
- Participated in a four-week trip to Burkina Faso in 2009 to build a hospital
